SECTION 1

Business Objectives

1. Sales Growth & Value Transition (Sell)

Increase overall sales by **5–10%** within **1.5 months** while gradually shifting from a **"discount-driven"** to a **"value-driven"** approach. Target selling at least **30%** of the new inventory at full price without direct discounts during May.

2. Increase Average Order Value (AOV)

Increase the average order value by **15%** within **1.5 months** by promoting **'Care Bundles'** (e.g., Body Splash + Lip Balm) offering high-perceived value instead of individual item discounts.

3. Inventory & Cash Flow Management (Serve/Save)

Implement a strict **48-hour 'Hold Policy'** for unpaid reservations. Unclaimed items will be automatically released to prevent capital freeze, unless secured via prepaid methods (**InstaPay** or **Vodafone Cash**)

4. Operational Efficiency & Order Fulfillment (Save)

Decrease canceled and ignored orders to under **5%** by implementing a mandatory order confirmation process via **WhatsApp** or **phone calls** prior to shipping.

5. Customer Acquisition & CAC Reduction (Sell/Save)

Accelerate customer acquisition by **20%** and reduce **Customer Acquisition Cost (CAC)** by launching the 'Remy Ambassador' program within **45 days**, generating **15%** of sales through **word-of-mouth** and referrals rather than paid ads.

6. Payment Flexibility & Rapid Response (Serve)

Enhance purchasing convenience with **2** payment methods (**Vodafone Cash, InstaPay**) and commit to a maximum **30-minute** response time across all channels during business hours to boost trust.

7. Post-Purchase Experience & Trust Building (Serve)

Execute a 100% follow-up system (including shipping notifications and 48-hour post-delivery check-ins) to secure 50 verified positive testimonials within the first 45 days.
